

HAEMOGLOBIN PLUS THE BLOOD TONIC

Addresses all the factors and the nutrients that the blood requires to be maintained all the in **peak condition**. The prevention off a low blood count ensures **optimum oxygen transfer** and gives **enhanced performance** at critical times. The product is unique in its inclusion of **pure haemoglobin** and its ability to ensure the **rapid elevation of the dog's haemoglobin level**. It is ideally suited for administration to dogs suffering from **anaemia, viral infections and other debilitating conditions** and for **breeding and performance dogs**.

PURIFY THE ULTIMATE LIQUID DETOXIFIER

Scientifically researched **Phyto-nutrients** in combination with multiple **micro-nutrients**, provides the basis of a unique formulation that is **fast-acting** and **multi-functional** in its properties.

- **Detoxification of the Liver, Kidneys, Blood and the entire Digestive Environment**
- **Organ cleansing and support, regenerative and protective**
- **Enhanced Blood production and Bone Marrow support**
- **Effects of Stress reduced, whatever the cause**
- **Red Blood Cell production enhanced**
- **Recovery times from illness greatly reduced**
- **Immune system boosted & the fight against pathogens, greatly enhanced.**

TRACE-PLUS

"The Building Block to the Future"

The high performance supplement to meet the needs of **pups, saplings, brood bitches** and **racing dogs** in **training**. There is no better way to assist the ongoing health, well-being and maintenance of the good condition of your dogs **TRACE-PLUS** is a scientifically balanced formulation that contains over **22 essential Vitamins & Minerals**. These ensure that dogs of all ages and condition have a full spectrum of nutrients to ensure optimum development and condition.

TRAINERS SPECIAL

For the racing greyhound the availability of energy is crucial throughout he race. This product has been scientifically formulated with the addition of special "molecular level"**FOOD CONVERSION** ingredients that guarantee optimum energy and nutrition absorption from all food and supplements. Natural **Vitamin E** and **Nutraceuticals**, are included in this special preparation available in a convenient powder form.

This product has crucial affects in the following areas:

- **Food Conversion (F.C.R.)**
- **Digestive Disturbances**
- **Reduced Joint Problem**
- **Blood Parameters**
- **Tying Up (Azoturia)**
- **Muscle Protection**
- **Muscle Soreness**
- **Muscle Development**

Contains highly biologically active and effective components Including **METAL AMINO ACID CHELATES (M.A.A.C.)**, **PHYTONUTRIENTS & scFOS** for **digestive disturbance**. **Prophylatic** ingredients help maintain **intestinal integrity** through elevating **Bifido bacteria** levels and **pH control**.

VOIDING POWDERS

A well established preparation to assist in the maintenance of healthy **Kidneys & Digestive Organs**. They are a gentle and effective method **eliminating many waste products**, minimising the danger of **eruptions** and **blood impurities**. The system is invigorated and potentially **injurious results** caused by over exertion or improper feeding minimised. Expertly formulated, to meet the Professional Greyhounds needs.

TISSUE REPAIR

A readily absorbed oil-in-water emulsion containing a large number of highly effective natural plant ingredients and extracts. The product will be found very efficient in **treating all types of external problems** and especially in those "difficult to heal" situations. Insect repellent and semi-water-proof characteristics make this an essential product for the greyhound owners "first-aid box".

STAMINO

The natural supplement to provide the performance dog with that extra **spark of energy**. Provided in a handy capsule for ease of administration, **STAMINO** will aid the efficient utilisation of the dog's stored energy. **Coenzyme Q10** required in the energy production by **Adenosine Triphosphate (ATP)** is included in these capsules for that function. The efficiency of energy release has been linked to a natural compound -**Octosanol**, which works by increasing oxygen utilisation. This is also included as part of a complete energy release product. Additionally, **STAMINO** helps increase **aerobic endurance** and is a powerful **cardio-vascular tonic**.

THESE PRODUCTS ARE FOR ANIMAL USE ONLY.
NO WITHDRAWAL PERIOD
Does not contravene rules of racing

THESE PROFESSIONAL PRODUCTS ARE AVAILABLE AT ALL MAJOR GREYHOUND TRACKS

CLASSIC ELECTO-AID GEL

This unique **GEL** has been formulated to aid in the **reduction of dehydration and in the prevention of stress**. It comes in a handy syringe for accurate and easy dosing. The product is formulated in an energy rich base to replace the vital salts lost during exercise, travel or other stressful events. These essential body salts can be provided either prior to a racing event, before kennelling or after a race.

METAL AMINO ACID CHELATES (M.A.A.C.) as part of the balanced composition.

This Product is the essential accoutrement for **Professional-Greyhounds** and when it is provided before a race could contribute a useful level of pre-energy.

Water should always be available at these times.

The only minerals included in the product are the highly bio-available

CLASSIC ELECTO-AID GEL / POWDER

An essential product to have available for every racing greyhound as it aids in the rapidly restoration of crucial mineral imbalances that can occur after races, hard training or other stressful events. Without the adequate provision of all the essential minerals contained in this Product, then disorientation, weakness and organ damage could occur. Contains Sodium, Potassium, Magnesium & Manganese, and Zinc ions, most as **M.A.A.C. (Chelates)** i.e. the most readily assimilable forms to counteract these situations and aid "Ionic Mineral Normalisation". The short-chain molecular carbohydrate base with the essential minerals, coupled with excellent water solubility, ensures rapid absorption and the return to normal levels.

Water should always be available.

SUPER 'E' PLUS

Prevents the onset of **muscle damage** and **fatigue** whilst meeting the high energy demands of the **racing Greyhounds' muscles**. High potency **Vitamin E** in conjunction with **Selenium** and the amino acids **Lysine** and **Methionine** provide an essential supplement for dogs being fed **cereal** and **meat/tripe** diets. This balanced formulation in an appetising glucose base, make it the effective product your dogs will repeatedly want.

IMMUNE-PLUS POWDER

Formulated to specifically enhance the **natural immune system** of the Greyhound by elevating the "T killer Cell" levels thereby assisting the body to **fight infections disease**. **Immune-Plus** additionally improves the overall efficiency of the **Digestion Process**, by the **detoxification** of the body and **purification of the digestive system** to **maximise the absorption of all nutrients**.

With the **Liver** being strengthened, this frees the **immune system** to fight a broad spectrum of pathogens - both bacterial and viral.

Summarising:-

- **Strengthens the Immune System**
 - **Lowers Neutrophil Levels**
 - **Increases Disease Resistance**
 - **Detoxifies the Liver & fights Invading Viruses**
 - **Stimulate Red Blood Cell production**
 - **Detoxifies the Bowels and improves Protein Utilisation**
 - **Has Natural Anti-oxidation properties**
- The **Phyto-nutrients** included play a crucial role.
